# Intake agent

Claims step: Register and check details

Opens new claims and checks the details are complete

**Goal**
What is this agent for?

**Instructions**
How should it behave?

**Memory**
What should it know about the claim?

**Tools**
What can it use?

**Autonomy** optional
Read, draft or act? When does a person approve?

GOOD INSTRUCTIONS GIVE IT

**The right instructions**
Say what good looks like, the rules, and the tone

**The right actions**
Name what it may do on its own, and what it may not

**The right checks**
When it stops and asks a person, and how we test it

SHARE BACK IN 30 SECONDS

Its name and goal, one instruction, and one check: when does it stop and ask a person?

About 5 minutes. Keep it to one step of the claim. Letters to the worker and payments always need a person to approve.

# Sorting agent

Claims step: Sort and assign

Routes each claim to the right team and adjudicator

**Goal**
What is this agent for?

**Instructions**
How should it behave?

**Memory**
What should it know about the claim?

**Tools**
What can it use?

**Autonomy** optional
Read, draft or act? When does a person approve?

GOOD INSTRUCTIONS GIVE IT

**The right instructions**
Say what good looks like, the rules, and the tone

**The right actions**
Name what it may do on its own, and what it may not

**The right checks**
